

CleanEquity Monaco 2014 – Announcing Further Collaborations & Companies

CleanEquity Monaco, 27th & 28th March, the preeminent global forum where emerging cleantech and resource efficiency companies of all nationalities, meet specialist financial investors, corporate venturers and acquirers, policy makers, end users and media.

Innovator Capital, the event host, is pleased to announce new collaborations with the following organisations:

Renault Nissan

The Renault-Nissan Alliance is the longest lasting cross-cultural partnership in the auto industry and will celebrate its 15th anniversary on March 27, 2014. Together, Boulogne-Billancourt, France-based Renault SAS and Yokohama, Japan-based Nissan Motor Co., Ltd., sell one in 10 cars worldwide under eight brands – Renault, Nissan, Renault Samsung, Infiniti, Venucia, Dacia, Datsun and Lada.

In 2013, the two companies together sold a record 8.3 million cars in nearly 200 markets. In addition to its strategic partnership with AVTOVAZ, Russia's largest car maker, the Alliance operates strategic collaborations with other automakers including Germany's Daimler, China's Dongfeng Motor, Japan's Mitsubishi Motors Corp. and India's Ashok Leyland.

The Renault-Nissan Alliance is the global leader in zero-emission mobility. Together, Renault and Nissan have sold more than 139,000 zero-emission vehicles worldwide since Nissan LEAF went on sale in December 2010, more than all major automakers combined.

Autodesk

Autodesk, helps people imagine, design and create a better world. Everyone, from design professionals, engineers and architects to digital artists, students and hobbyists, use Autodesk software to unlock their creativity and solve important challenges.

With the Clean Tech Partner Program, Autodesk takes on the responsibility of supporting the efforts of early stage clean technology companies by providing them with design and engineering software they can use to accelerate development of solutions to the world's most pressing environmental challenges, thus empowering them to create a better, more sustainable world.

CleanEquity Monaco provides an important platform for these companies and all members of the clean tech community and we are proud to be part of it.

Polar Star Ventures

Polar Star Ventures, an investment initiative of the Renova Group, is a global venture capital firm, which invests alongside visionary entrepreneurs in cleantech and biotech. It is focused on innovative and dynamic projects with high growth potential from all over the world.

Renova Group is a leading, international, private business group, which consists of direct and portfolio managed investment funds. Renova owns and manages assets in metals and

mining, machine building, chemicals, technology, energy, transport, telecommunications and financial sectors in Russia and worldwide.

Polar Star invests in innovations without borders and focuses on a wide spectrum of cleantech, bio fuels, bio chemicals, biotechnology, healthcare and biotech IT, devices, industrial biotech, agriculture, pharmaceuticals and diagnostics. The Polar Star team is strong in scientific and business expertise, the strategy is to invest in the best, help them grow and to participate in their commercial success.
